

HALEEMA SADIA

Flutter Developer | Mobile App Engineer

Punjab, Pakistan | +92 330 4131068 | i.m.haleema.00@gmail.com | linkedin.com/in/haleemaa-sadiaa | github.com/Haleema-sadia-00 | haleema-sadia-00.github.io/Portfolio

PROFESSIONAL SUMMARY

Flutter developer specializing in cross-platform mobile applications, with hands-on experience building production-grade apps integrating REST APIs, Firebase, and Python backends. Built TapMate, a floating-overlay video downloader app with real-time clipboard detection, a FastAPI/yt-dlp backend supporting 1000+ platforms, and Firebase authentication for 1000+ potential users. Comfortable owning a mobile app end-to-end: UI, state management, API integration, and native device permissions.

TECHNICAL SKILLS

Mobile Development: Flutter, Dart, Firebase (Auth, Firestore), REST API Integration, State Management, flutter_overlay_window, clipboard_watcher, permission_handler

Backend & APIs: FastAPI (Python), Node.js, Laravel (PHP), Django, .NET Minimal API, RESTful API Design

Databases: MySQL, SQLite, PostgreSQL, MongoDB, Firebase Firestore

Frontend & Design: React.js, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Bootstrap, Figma

Tools: Git/GitHub, VS Code, Android Studio, Postman, Swagger, Firebase Console

FEATURED PROJECT — TAPMATE (FLOATING BUTTON VIDEO DOWNLOADER)

Flutter, Dart, FastAPI (Python), yt-dlp, Firebase Auth, Firestore | 2025 - 2026

- Built a cross-platform Flutter app delivering an IDM-like floating overlay button on top of YouTube, Instagram, TikTok, Facebook, and Twitter for one-tap video downloads.
- Engineered a ClipboardWatcher service to detect copied video links in real time and trigger the overlay with instant link validation.
- Developed a FastAPI backend integrated with yt-dlp, supporting downloads from 1000+ platforms across multiple quality tiers (1080p, 720p, 480p).
- Integrated Firebase Authentication (email/password, Google, Facebook) and Firestore for user data, permissions, and session management.
- Implemented Android 6.0+ runtime permission handling for overlay display, storage access, and notifications, plus download progress tracking and library management.

WORK EXPERIENCE

WordPress Web Developer — Coramers (Remote)

Mar 2026 - Present

- Build and maintain client websites, customizing themes and developing custom plugins.
- Optimize website performance for SEO and page speed.

Full-Stack Developer Intern — Code Alpha (Remote)

Jan 2026

- Developed cross-platform mobile applications using Flutter and Firebase, focused on high-performance frontends and API integrations.
- Built backend solutions with PHP, Laravel, and Node.js, integrating RESTful APIs and Firebase services.
- Collaborated across the full development cycle, from implementing Figma designs to managing version control via GitHub.

WordPress Developer Intern — GAO Tek Inc. (Remote, USA)

Aug 2025 - Jan 2026

- Developed and maintained client websites over a 6-month internship using WordPress, Elementor, and custom PHP.
- Implemented responsive designs and ensured cross-browser compatibility while optimizing site performance.

Android Developer Intern — SyntecxHub (Remote)

Nov 2025 - Dec 2025

- Gained hands-on experience in native Android development using Java and XML layouts, implementing UI components and core app functionality.

ADDITIONAL PROJECTS

- Smart Attendance Tracker (Flutter, Firebase, Google Sheets API) — 3-tier QR-based attendance system with admin, teacher, and student apps.
- Social Media Platform (Django, Python, SQLite) — Instagram-style app with profiles, posts, follows, and direct messaging.
- MyShop E-commerce (Node.js, Express, SQLite) — Full online store with auth, cart, checkout, and admin panel.
- Laravel Task Management System (Laravel, PHP, MySQL) — Task manager with authentication and full CRUD via Eloquent ORM.

EDUCATION

BS Software Engineering — PMAS Arid Agriculture University, Rawalpindi

2022 - 2026

Coursework: Data Structures, Algorithms, Databases, Web Development, Mobile App Development, Software Design

CERTIFICATIONS

- Flutter Development Bootcamp — Simplilearn
- SQL Fundamentals — Simplilearn
- ASP.NET Core MVC Certification — Simplilearn
